

Standard Equipment/Optional Equipment

Standard Equipment

Fully suspended operator compartment (2t & 2.5t)	Automatic speed reduction when cornering
Suspended floor (T14 S)	Electromagnetic emergency brake acting proportionally to the load weight
Narrow chassis width	CAN bus technology
Key switch or PIN Code access	Drive wheel Polyurethane
Multifunction coloured display as well as hourmeter, maintenance indication, battery discharge indicator and internal fault code indication	Single load wheels Polyurethane
Power assisted steering	Battery compartment for 3PzS and 4PzS
Automatic speed reduction when cornering	Width over fork carriage: 520mm, 540mm, 560mm & 680mm
ECO-Mode with up to 12% energy savings	Fork carriage length: 1000mm, 1150mm, 1160mm, 2400mm (overhang 188mm) and 2400mm (overhang 563mm)
Drive wheel position mentioned in display (S)	Protection -10°C
Steering wheel left or right side (S)	

Optional Equipment

Drive wheels: cushion rubber, synthetic cushion rubber non marking, wet grip	Pole on left side for additional support
Load wheels: tandem polyurethane, single polyurethane greasable, tandem polyurethane greasable	Pole on right side for flashing beacon
Lateral battery change 3PzS and 4PzS with ergonomic battery un/locking with lever	Support Clipboard DIN A4
Load backrests with h=1115mm and h=1875mm	Support data terminal incl. power supply cable 24V
Floor compensator	Mobile or Fixed battery stand
Speed reduction if forks lowered	Automatic battery watering system
Linde Connected Solutions: ac:access control (PIN or RFID Dual), an:usage analysis and dt:crash detection	Cold store protection -35°C
	Other options available on request

Stand-on Pallet Truck
Capacity 1400, 2000 & 2500 kg
T14 S, T20 S/SF, T25 S/SF Series 1154

Safety

High performance combined with safety. The operator's body remains safely within the chassis contours at all time. A deadman foot switch ensures instant braking response when necessary. The truck comes rapidly to a smooth stop thanks to an electromagnetic brake which acts proportionally to the load on the forks. Due to its compact chassis, the fork tips are easily visible ensuring safe load handling.

Performance

One of the truck's great strengths is its productivity. The compact drive unit permits precise manoeuvring for reaching the utmost performance. With capacity from 1,400 kg up to 2,500 kg, and a powerful maintenance-free 3 kW drive motor providing a maximum speed of 12 km/h, the Stand-on Pallet Truck is ideally suited to intensive lorry loading and unloading and rapid pallet transfer applications.

Comfort

The fully suspended operator compartment, completely decoupled from the chassis keeps the driver concentrated and maintains high efficiency levels throughout the shift. Allied with a padded backrest, the operator's stability is assured.

Reliability

Rugged construction and the use of tried and tested components make this a truck that can be relied on. Smooth fork entry into close pallets is assured by the profiled shape of the fork tips and the entry skid. These features guarantee a longer operating life combined with fast, safe and easy load handling.

Service

Efficiency at work and efficiency in servicing with cost effective maintenance routine. Easy access to all components and maintenance-free technology also play their part in increasing truck uptime and availability. CAN bus connectivity provides a computerised diagnostic system for rapid analysis to ensure maintenance intervals are also minimised.

Features

Fully suspended operator compartment

- Standard on 2t & 2.5t versions
- Suspended floor on T14 S
- Decoupled stand-on platform and drive unit from the chassis (S and SF)
- Comfortable and curved padded backrest (S)
- Significant reduction of vibrations transmitted to the body
- Ergonomic 90° driving position (S)

Narrow chassis

- Chassis width = 770mm
- Small I2 dimension = 800mm
- High maneuverability when operating in lorries or confined spaces
- High stand-on position for good visibility
- Stable 4 point configuration

Workstation

- Multifunctional coloured display with easy & ergonomic menu structure
- Truck access control by PIN code or ignition key
- Wide and deep storage compartment for work gloves, writing utensils etc
- Support clipboard DIN A4, flashing beacon available as option

Tip Control

- Traction, lift controls and horn grouped in one single ergonomic unit
- Enables one-handed operations
- High modularity : either left or right side
- Height adjustable hand platform
- Available on Side (S) version

Battery & chargers

- Battery tray for DIN batteries
- 24V batteries : capacities from 345 Ah (3PzS) to 500 Ah (4PzS)
- Lateral battery change with ergonomic battery lever & spring (option)

Multiple driving positions

- Side (S) version: vertical to forks direction
- Tip Control, an innovative drive and lift control unit
- Steering wheel on right or left side
- Ergonomic driving position with comfortable backrest
- Stand Front (SF) version: in forks direction
- Twin grip handle bar

Drive control and settings

- Steering effort adjusts automatically to speed and turning radius
- Speed is automatically reduced in relation to the steering angle
- Power settings available
- ECO-Mode up to 12% energy savings to finish shift with low battery status

AC motor

- Powerful, 3 kW drive motor
- Maintenance-free, moisture and dust proof AC motor
- Three power settings
- Gradient performance of max. 15% (laden)
- No roll back on gradient starts
- High torque motor negotiates loading docks with ease
